The PPBA advocates medical and safety standards recommended by the The International Association of Ringside Physicians/doctor (IARP).

KNOCKDOWN AND KNOCKOUT:

- 1. A boxer shall be considered to be "down"** when any part of their body, other than their feet are on the canvas or if they are hanging helplessly over the ropes as a result of a legal blow as rules by the Referee, who is the only person authorized to determine this, or if they are still rising from the down position and not standing upright.
- 2. The mandatory eight (8) count rule shall be in effect** in all PPBA Championship bouts. No standing eight (8) is permitted. Three knockdowns in any one round do not automatically terminate the fight. If in the Referee's judgement the knock-downs have been indecisive and clearly with no injurious effect upon the Boxer, the contest may be continued but with good sense and judgement and the Boxer's welfare always paramount.
- 3. When the Contestant is knocked down,** the Referee shall audibly announce the count as he motions with his right arm downward indicating the end of each sound of the count. If the Contestant taking the count is still down when the Referee calls the count of ten (10), the Referee shall wave both arms indicating that the Contestant has been knocked out.
- 4. When a Contestant has been knocked down,** the Referee shall order the opponent to the farthest neutral corner of the ring and pick up the count from the Timekeeper or the Official counting for knockdowns. Should the Opponent fail to stay in the corner as direct by the Referee, the Referee shall stop the count at the point that it was interrupted. In the event of any knockdown, the Timekeeper's count will cease when picked up the Referee whose count shall prevail and be relied on by the Contestant.
- 5. A Contestant, who has been knocked out of the ring** (body off the apron) as a result of a legal blow, may not be helped back in by their Corner people. The Referee shall allow the Contestant twenty (20) seconds to re-enter the ring and stand. Should the Contestant fail to re-enter the ring on his own by the allotted time, the Referee shall wave both arms to indicate that they have been knocked out and raise the hand of the opponent as the winner.
- 6. A Contestant may not be saved by the bell in any round.** If a Contestant is down and the round has terminated, the Referee shall continue the count until the Contestant rises or is counted out. If a Contestant fails to rise before the count of ten (10), they shall be declared a loser by knockout in the round just concluded.

ILLEGAL BLOWS AND FOULS:

- 1. It is expressly understood that a Championship contest** is not to be terminated by the effects of a low blow. The protection that must be used by both Contestants is sufficient protection to withstand any so-call low blow which might incapacitate either one of the Contestants.
- 2. If one of the Contestants, after the Referee instructs them to continue,** indicates an unwillingness to continue because of a claim of a low blow, the contest shall be terminated and the contest shall be awarded to their Opponent.
- 3. In case of any type of accident found,** the Referee shall determine if the fouled Contestant can immediately continue or not. If the Referee determines that their chances have been jeopardized as a result of the foul, the Referee may order an interval of not more

than five (5) minutes of rest. The bout shall continue hereafter if caused by a low blow.

4. Any Contestant who deliberately fouls their Opponent during a contest shall be penalized with a deduction of points or disqualification, depending on the severity of harmlessness of the foul and its effect on the Opponent.

If a Contestant intentionally fouls their Opponent and as a result an injury is produced and due to the injury, in the Referee's opinion the Contestant cannot continue, the offender shall be declared the loser by disqualification. If in the subsequent rounds the same injury should become so severe that the contest has to be suspended, the decision will be awarded as follows:

1. Technical draw, if the injured Boxer is behind on points or even on the score cards of the Judges.
2. Technical decision, if the injured Boxer is ahead on points on the score cards of the Judges.

D. ACCIDENTAL FOULS

If the Referee sees or determines that a Boxer has been accidentally injured by their Opponent so that they cannot continue, a technical decision shall be awarded to the Contestant who is ahead in points on the scorecards.

If under the same circumstances the fight can continue, the Referee shall notify the Judges, the Commission, and the PPBA Commissioner that the injury has been caused by an accidental foul, so that if in the subsequent rounds the injury becomes so severe that the bout has to be stopped, the decision shall be awarded to the Contestant ahead on the score cards. If a bout has to be stopped as a result of an accidental foul before four (4) rounds have been completed, the bout will result in a technical draw. The fourth round shall be deemed to have ended when the bell rings ending the fourth round.

- 1.** The Referee shall be the Chief Official in every Championship contest and shall maintain supervision and control over the contest while it is in progress.

- 5. The Referee shall have the power to stop a contest** and render a decision at any stage if they consider it to be one-sided or if either Contestant is in such condition that to continue might subject them to serious injury.
- 6. If a Boxer sustains an injury from a fair blow or foul** that the Referee believes may incapacitate the Boxer, the Referee is empowered to interrupt the contest and consult with the Ringside Physician on the advisability of allowing the bout to continue. The Referee is the only one permitted to signal the end of a bout.
